“Education is not merely the acquisition of knowledge, but the cultivation of character, curiosity, and courage.”

Ms. Priya Kaushik
Principal, Delhi Public School, Roorkee

Dear Students,

We are living in an age where information is available in seconds, but wisdom must still be earned. Technology is advancing at an extraordinary pace, yet the qualities that truly define a successful individual remain unchanged—integrity, discipline, compassion, resilience, and the courage to do what is right. The world does not merely need intelligent minds; it needs responsible citizens, ethical leaders, and compassionate human beings. Every choice you make today—how you study, how you treat others, how you respond to challenges, and how you use your time—shapes the person you will become tomorrow.

Never allow failures to discourage you or success to make you complacent. Learn with curiosity, work with dedication, and lead with humility. Develop the habit of asking questions, thinking independently, respecting diverse perspectives, and standing firm for truth and justice, even when it is difficult. Remember, education is not just about preparing for examinations; it is about preparing for life. It is about building character, nurturing values, and developing the confidence to create positive change in the world.

At our school, we believe that every student has immense potential. Dream fearlessly, work relentlessly, and never stop believing in your ability to make a difference. The future is not something you wait for—it is something you create through your actions every single day.

May you always strive not only to be successful, but also to be kind, courageous, and worthy of the trust that society places in you.

"Your greatest achievement will not be the marks you score, but the lives you inspire and the values you uphold."

With my best wishes for your continued growth and success.

Principal

Blueprint for Academic Success

Preparation a Day Before

Rajesh Bhandari (HOD - English)

The day before class, the main job is to reduce confusion for the next day. A good approach is to make a short plan for what you need to study or review. For example, you might write: “Revise the chapter headings, read key terms, and solve five short questions.”

Useful steps:

- Pack all materials in one place the night before.
- Check your timetable and list the topics for the next day.
- Divide work into small tasks instead of trying to finish everything at once.
- Spend 15–30 minutes reviewing difficult points rather than rereading the whole chapter.
- Sleep early enough to stay alert the next day.

A real-life example: if a student has mathematics class on fractions, they can review formulas, check class notes, and keep a few practice problems ready.

That way, the student enters class with some familiarity instead of starting from zero.

Approach in the Class

Class time is most useful when students stay active instead of just sitting and listening. Active listening means following the lesson closely, noting important points, and asking questions when something is unclear.

Students should try to:

- Listen attentively in classroom.
- Write notes in their own words.
- Mark topics that seem difficult.
- Ask questions when they are confused.
- Answer practice questions when the teacher invites participation.

A simple example is a student in history class who writes down the causes of an event in short phrases instead of copying a full paragraph. Later, those shorter notes are easier to revise.

It also helps to connect what is being taught to what you already know. If the teacher explains a science concept, you can ask yourself, “How does this fit with last week’s topic?” That kind of thinking improves understanding and makes the lesson easier to remember.

Practice at Home

Practice at home should focus on doing, not just looking. Studies on retrieval practice show that trying to recall information from memory is usually more effective than passive rereading for long-term learning. In simple terms, it is better to test yourself than to keep reading the same page.

Practical ways to practice at home include:

- Solve textbook questions or past questions.
- Cover your notes and try to explain the topic aloud.
- Make flashcards with one question on one side and one answer on the other.
- Write a short summary from memory, then check what you missed.
- Teach the topic to a friend, sibling, or even to yourself.

For example, a college student studying economics might read the definition of supply and demand, close the book, and then explain it in their own words. If they struggle, that shows where more practice is needed. That struggle is useful because it reveals gaps early.

Keep practice sessions short and focused. A 20-minute practice block often works better than one long, distracted session.

The key is to stay active and honest about what you know and what you still need to learn.

Revision at Home

Revision is not the same as first-time studying. Revision is where you check memory, strengthen weak areas, and make sure important ideas stay fresh over time. Spaced review, where you revisit material after a short gap and then again later, is widely supported as a strong learning strategy.

A simple revision routine can look like this:

- Review the topic on the same day you learned it.
- Revisit it again the next day.
- Check it again after a few days.
- Do a weekly review of older topics.
- Use practice questions to test yourself.

Students can use different revision tools depending on the subject. Flashcards work well for vocabulary and formulas. Mind maps can help with topics that have many connected ideas. Practice papers are useful for exam-style subjects because they train both memory and time management.

A real example: a student preparing for a language exam might revise new words on Monday night, test them again on Wednesday, and use them in sentences on Saturday. That repeated effort makes the words easier to remember under exam pressure.

What to Avoid

Some habits feel productive but do not help much. For many students, rereading notes over and over can create a false sense of confidence because the material looks familiar, even if it is not well understood. Highlighting alone is also not enough if it is not followed by recall or practice.

Try not to:

- Study everything only the night before.
- Depend only on reading and highlighting.
- Skip self-testing.
- Leave difficult topics for the end.
- Revise without checking what you can actually remember.

Preparing for your syllabus is easier when you treat it like a routine, not a crisis. If you organize the day before, stay active in class, practice at home, and revise regularly, you give yourself a much better chance of understanding and remembering the material.

The most useful study plan is usually not the most complicated one. It is the one you can follow consistently.

Your Vote, Your Voice: What Our Mock Elections Taught Us

Jyoti Choudhary (HOD - Social Science)

Every year I teach the chapter on elections, and every year the same thing happens. The words go in — voting, rights, constituency, ballot — but the meaning never quite does. Students can define democracy in an exam. Ask them what it feels like, and the room goes quiet.

So this year, our department tried something different. Instead of explaining elections, we held one. The candidates made their own posters and gave speeches. We set up a real ballot paper and a ballot box. Honestly, we had planned it as just another lesson. It turned into something none of us expected.

One boy stood up and told his classmates the truth. He said that if they chose him, things might feel difficult at times — he talked about discipline, about consistency, about not giving up when it gets hard. It was easily the most honest speech of the day.

He lost. And not narrowly.

The winner had promised the opposite — ease, comfort, all the things people like to hear.

I couldn't bring myself to blame twelve-year-olds for this. Children copy what they see, not what they're told. Somewhere along the way, they've watched us — the adults — vote for what feels good. On that day, they simply did the same.

What I hope is that years from now, when these children stand in a real polling booth, some small memory of this day returns. Enough to make them pause and ask what we adults so often forget to — am I voting for my comfort, my religion, my caste, or for my country?

Before we wrapped up, we gave them one last piece of homework. Before the next election, they were to ask their parents two questions. First: are you going to vote? And second — the harder one — are you voting for what's easy, or what's right?

Mathematics: The Language of Logic and Innovation

Abhishek Goyal: (HOD – Mathematics)

Mathematics is much more than numbers, formulas, and calculations —it is the universal language that helps us understand the world around us. From the patterns in nature to the technology we use every day, mathematics forms the foundation of innovation, scientific discoveries, and logical thinking.

As students progress through their academic journey, they develop essential life skills such as critical thinking, analytical reasoning, problem-solving, and decision-making. Mathematics teaches us to approach challenges systematically, persevere through difficulties, and arrive at well-reasoned solutions. These qualities not only contribute to academic excellence but also prepare students to become confident and responsible citizens.

At our school, the Mathematics Department strives to make learning engaging, meaningful, and enjoyable. Through activity-based learning, mathematical puzzles, quizzes, projects, real-life applications, and technology-enabled teaching, we encourage students to explore concepts beyond textbooks. Our aim is to cultivate curiosity, creativity, and confidence while nurturing a genuine appreciation for the subject.

We firmly believe that every child possesses the potential to excel in mathematics when guided with patience, encouragement, and the right learning environment. Success in mathematics is not determined by innate talent alone but by consistent practice, determination, and a positive attitude.

Let us continue to embrace mathematics not merely as a school subject but as a way of thinking—one that empowers us to solve problems, make informed decisions, and contribute meaningfully to society.

"Mathematics is not about numbers alone; it is about understanding patterns, developing logic, and discovering endless possibilities."

Thank you

NEAT AND HARMONIOUS HOOKS

Classes IX & X | Delhi Public School, Roorkee

17 11 April 2026

To promote cleanliness, creativity and aesthetic presentation, Delhi Public School, Roorkee organised the Neat and Harmonious activity for the students of Classes IX and X. Students displayed remarkable creativity, coordination and attention to detail through beautifully organised and well-presented displays. The activity encouraged teamwork, discipline and artistic expression while fostering an appreciation for neatness and harmony in presentation. It proved to be an engaging and enriching experience, inspiring students to value organisation and collaborative learning.

In the competition,

- 1st Position - Class X 'E'
- 2nd Position - Class X 'A' & 'D'
- 3rd Position - Class IX 'A'

INTER-HOUSE CRICKET COMPETITION

Delhi Public School, Roorkee successfully conducted the **INTER-HOUSE CRICKET TOURNAMENT (Boys)** for Classes X to XII

HELD ON- 18 April 2026

The tournament witnessed amazing energy, sportsmanship and team spirit from all participating houses.

HIGHLIGHTS

The final was played between Blue House and Green House, and both teams displayed tough competition throughout the match. Yellow House and Red House also competed really well and put up a commendable performance. Every team displayed determination, teamwork and true sportsmanship. The results were as follows:

- 1st position - GREEN HOUSE
- 2nd position - BLUE HOUSE
- 3rd position - RED HOUSE

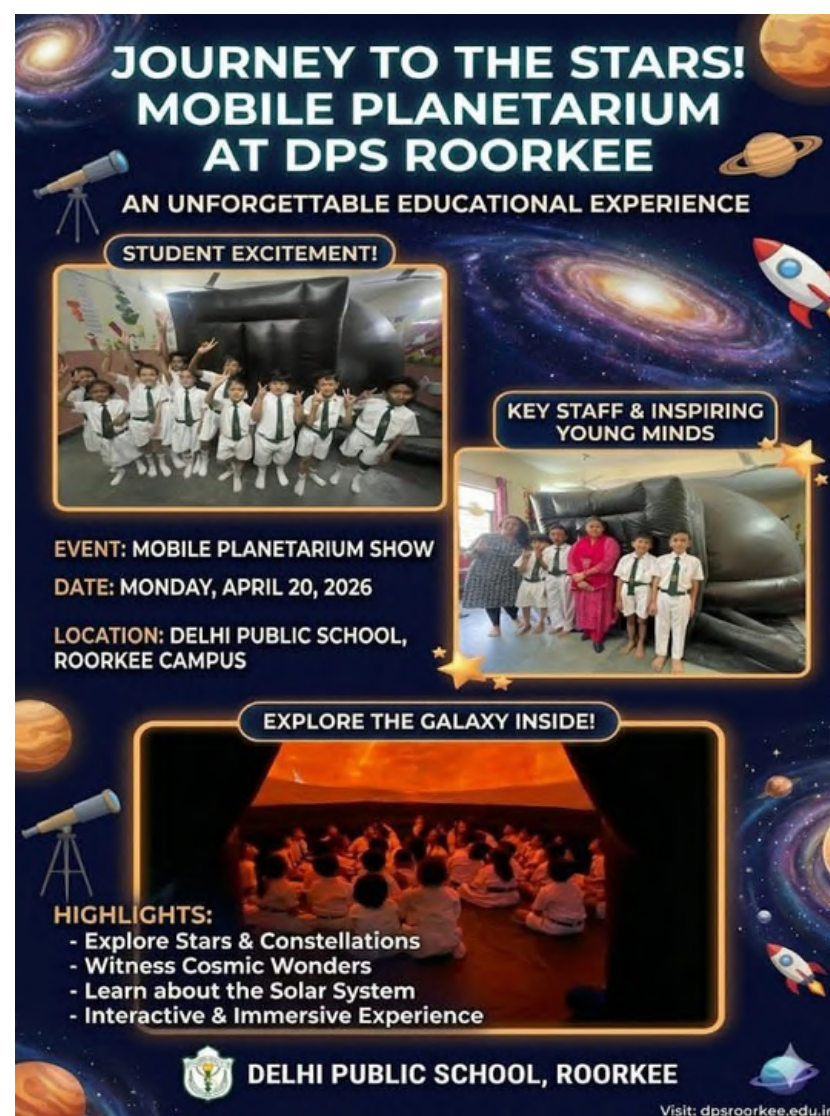

Showcasing Team Spirit and Sportsmanship

Delhi Public School, Roorkee witnessed an exciting display of teamwork and sportsmanship during its **Inter-House Volleyball Competition** held this session. The **Volleyball Competition (Girls)** for students of Classes VI–XII, conducted on **21 April 2026**, featured energetic performances from all the houses. After a series of closely contested matches, **Red House** emerged victorious, followed by **Blue House** in second place and **Green House** in third.

The **Volleyball Competition (Boys)** for students of Classes XI and XII, held on **19 May 2026**, was equally thrilling, with players showcasing determination, coordination, and resilience. **Red House** once again secured the championship title, while **Yellow House** claimed the runner-up position and **Green House** finished third. The competition concluded on a high note with the recognition of the winning teams and appreciation for all participants. The event reflected the school's commitment to nurturing physical fitness, resilience, teamwork, and the spirit of healthy competition as an integral part of holistic education.

PLANETARIUM SHOW

Held on: April 20, 2026

Journey to the Stars!

Delhi Public School, Roorkee organized an exciting and informative Planetarium Show, offering students a unique opportunity to explore the wonders of space. The immersive experience was designed to inspire curiosity and deepen their understanding of the universe through engaging visual presentations and interactive learning.

Inside the specially designed dome, students embarked on a captivating virtual voyage across the solar system, discovering fascinating facts about planets, stars, and galaxies. The show also featured thrilling rocket launch sequences and an entertaining segment on dinosaurs, making the event both educational and memorable. It was a delightful blend of science, imagination, and discovery that left students inspired to learn more about the mysteries of the cosmos.

3-D MODEL MAKING SHOW – EARTH DAY

Classes IX & X | Delhi Public School, Roorkee

17 25 April 2026

To commemorate Earth Day, Delhi Public School, Roorkee organised a **3-D Model Making Show** for the students of Classes IX and X.

Students showcased their creativity and innovation through impressive 3-D models on the theme of Earth. The models highlighted environmental conservation, sustainable living and practical solutions for a better tomorrow.

The event encouraged scientific thinking, teamwork and creativity while spreading awareness about the importance of protecting our planet. It was an enriching and inspiring experience for all.

RESULTS*

- 1st Position - Class X-D
- 2nd position - Class IX-B
- 3rd position - Class IX-F

INTER-HOUSE VOLLEYBALL COMPETITION

May

MOCK ELECTION

Delhi Public School, Roorkee successfully conducted the **MOCK ELECTION ACTIVITY** FOR THE ELECTION OF SOCIAL SCIENCE REPRESENTATIVE

HELD ON – 08 MAY 2026

The activity was organised to provide students with a practical understanding of the democratic election process through experiential learning. Class VIII students participated as candidates and voters, while Class VII students took part as observers and actively interacted with the candidates during the event.

HIGHLIGHTS

- Twelve candidates (one boy and one girl from each section of Class VIII) contested the election with equal representation.
- Candidates presented their manifestos, election symbols and slogans. Class VII students also participated in a question-answer session and an election-based quiz.
- Voting was conducted through a secret ballot. Students verified their details, cast their votes and received an indelible ink mark to experience the election process.

RESULTS

- Popular Vote Winner – Himanshi (Class VIII)
- Judges' Award – Parin (Class VIII)

The activity provided students with a meaningful understanding of the democratic process while encouraging leadership, participation and responsible citizenship.

INTER-HOUSE BASKETBALL TOURNAMENT

Delhi Public School, Roorkee successfully conducted the **INTER-HOUSE BASKETBALL TOURNAMENT (GIRLS)** for Classes VI to XII

HELD ON- 21 MAY 2026

The tournament witnessed amazing energy, sportsmanship and team spirit from all participating houses.

HIGHLIGHTS

Blue House and Green House had a tough and thrilling competition throughout the matches. Yellow House and Red House also competed really well and put up a commendable performance. Every team displayed determination, teamwork and true sportsmanship.

"A day full of passion, teamwork and competition that made the tournament truly memorable"

Results were,

- 1st position - GREEN HOUSE
- 2nd position - BLUE HOUSE
- 3rd position - RED HOUSE

NCC SHOOTING TRAINING

HELD ON -16 May

The NCC Cadets of Delhi Public School, Roorkee proudly participated in a rigorous Firing Training session organized by the 84 Battalion NCC. Throughout the training program, the young cadets displayed remarkable discipline, confidence, dedication, and enthusiasm, beautifully embodying Aristotle's timeless words : "The roots of education are bitter, but the fruit is sweet." Such practical exposure plays a vital role in students' lives, helping them to develop essential leadership qualities, courage, teamwork, and a strong sense of patriotism. Recognizing their outstanding spirit and commitment to serving the nation, the school extended a proud salute to their hard work and determination with the powerful reminder: "**Trained today, leaders tomorrow, protectors forever.**"

To stay updated with more such achievements, you can visit the school's official website at www.dpsroorkee.com or connect via Facebook (Delhi Public School Roorkee) and Instagram (@dpsroorkee).

INTER-HOUSE BOARD COMPETITION

To nurture creativity, teamwork, and artistic expression among students, **Delhi Public School, Roorkee** organised the **Inter-House Board Competition** on **16 May 2026**. The event witnessed enthusiastic participation from all four houses-**Red, Blue, Yellow, and Green**-each striving to transform their allotted display boards into captivating works of art.

With immense dedication, careful planning, and a spirit of healthy competition, students collaborated to create visually appealing boards that reflected innovative ideas, meaningful themes, and exceptional craftsmanship. Every house demonstrated remarkable imagination through vibrant colours, intricate artwork, creative layouts, and well-presented content. The display boards stood as a true reflection of the students' artistic abilities, teamwork, and attention to detail.

The competition not only provided a platform for students to showcase their creativity but also encouraged cooperation, leadership, and effective communication as they worked together towards a common goal. The enthusiasm and determination displayed by every participant made the event both inspiring and memorable. The judges appreciated the originality, aesthetic appeal, and thoughtful execution exhibited by each house, making the selection process a challenging one.

The **House Board Competition** was a resounding success, celebrating the creative talents of the students while strengthening the spirit of unity and healthy competition that lies at the heart of the DPS Roorkee community.

AWARENESS PROGRAM ON BASIC AI USAGE FOR CADETS

Date: April 21, 2026

Delhi Public School, Roorkee, in collaboration with 84 UK BN NCC, Roorkee, organized an informative awareness program on the topic **“Awareness on Basic AI Usage for Cadets.”** The objective of this program was to provide NCC cadets with fundamental knowledge of Artificial Intelligence (AI) and to teach them how to use AI safely, responsibly, and ethically in education and daily life. During the program, the speaker explained the concept of AI in a simple and engaging manner. Cadets were introduced to various AI-based tools and learned how AI can be applied in studying, research, communication, language translation, preparing presentations, and problem-solving. It was emphasized that when used correctly, AI can enhance learning ability and efficiency. The session placed special focus on the ethical use of AI, digital responsibility, cyber security, protection of privacy, and the importance of verifying the accuracy of AI-generated information before using or sharing it. Cadets were advised to treat AI only as an assistant and not let it replace their own thinking, creativity, and hard work. They were also cautioned against misinformation, plagiarism, and misuse of AI. An interactive discussion was held, where cadets enthusiastically asked questions and shared their views on the future of AI. Real-life examples were used to make the session interesting and easy to understand. In conclusion, cadets were motivated to adopt modern technology with responsibility, discipline, and integrity. The awareness program proved to be highly informative and beneficial for all cadets, equipping them with the necessary knowledge and confidence to use AI safely, ethically, and effectively.

CTO:
Priyanka Prajapati

Participating Cadets:

- Cadet Nakul Singh Rana : 10 - D
- Cadet Gagandeep Tyagi : 10 - D
- Cadet Abhay Saini : 10 - B
- Cadet Devansh Chaudhary : 10 - D
- Cadet Saanvi Chaudhary : 10 - E
- Cadet Hargun Kaur : 10 - D
- Cadet Ojaswini Singh : 10 - C

July

AADHAAR MANDATORY BIOMETRICS UPDATE CAMP CONDUCTED AT DPS ROORKEE

DPS Roorkee successfully organized an Aadhaar Mandatory Biometrics Update (MBU) Camp in the school campus from 9 July to 14 July 2026. The initiative was conducted to facilitate the mandatory biometric updation of students' Aadhaar details, which are required for uploading accurate information on the UDISE+ Portal.

Students identified for the update attended the camp with copies of their Aadhaar Cards and completed the process smoothly under the guidance of the school administration and the authorized Aadhaar team. The camp ensured convenient access to this essential service and supported the timely completion of an important administrative requirement.

INTERHOUSE TROPHY MAKING COMPETITION

Best Out of Waste

Creativity knows no bounds when imagination meets responsibility. Keeping this spirit alive, Delhi Public School, Roorkee organized an **Inter-House Trophy Making Competition** on **7th July 2026** for the students of **Classes XI and XII**. The competition challenged students to transform waste and recyclable materials into stunning trophies, reinforcing the message that discarded items can be given a new purpose through innovation and creativity.

With immense enthusiasm and dedication, students from all the houses participated wholeheartedly, presenting thoughtfully designed trophies that reflected artistic excellence, teamwork, and environmental consciousness. Each creation was unique, beautifully crafted, and carried the essence of the **"Best Out of Waste"** concept, proving that sustainability and creativity can go hand in hand.

The competition not only showcased the students' talent and imagination but also inspired everyone to adopt eco-friendly practices and appreciate the value of recycling. Every house displayed exceptional effort and determination, making the event a memorable celebration of innovation, craftsmanship, and responsible living.

- 1st position - BLUE HOUSE
- 2nd position - GREEN HOUSE
- 3rd position - YELLOW HOUSE

INTER-HOUSE CULINARY COMPETITION

The aroma of freshly prepared delicacies, the excitement of teamwork, and the spirit of healthy competition filled the campus as **Delhi Public School, Roorkee** hosted the **Inter-House Culinary Competition** on **28 July 2026**. Students from all four houses participated with great enthusiasm, turning simple ingredients into beautifully presented dishes.

The preparations began a few days before the competition. Participants were given three categories to choose from, and after discussing different ideas, each house planned its menu accordingly. Interestingly, all the houses chose the Indian cuisine category, but every team brought its own unique flavours, presentation, and creativity to the table. From planning the dishes to arranging the ingredients and final presentation, every member played an important role.

Despite the heavy rainfall on the day of the competition, the excitement of the participants remained undeterred. Students coordinated wonderfully with their teammates, managed their time efficiently, and supported one another throughout the event. The dishes reflected not only culinary skills but also the dedication and hard work that had gone into their preparation.

The competition gave students an opportunity to learn beyond the classroom by exploring new recipes, improving their presentation skills, and experiencing the importance of teamwork. Overall, the event was a delightful learning experience that celebrated talent, cooperation, and the joy of cooking, leaving every participant with wonderful memories to cherish.

- 1st Position was secured by Blue House
- 2nd Position was secured by Green House
- 3rd Position was secured by Yellow House

DISTRICT BADMINTON TOURNAMENT

DPS Roorkee Students Shine at **Haridwar District Badminton Tournament**

Parth Tyagi of Class XI showcased outstanding sporting talent at the Haridwar District Badminton Tournament held at HRDA sports complex haridwar from 3–5 July 2026. bringing laurels to the school through his remarkable achievements along with his doubles partner.

Parth Tyagi of Class XI won a **Silver Medal** in the Under-17 Boy's Doubles event along with his partner Saksham of Class X.

Parth Tyagi also secured a **Bronze Medal** in the Under-19 Mixed Doubles category along with Chhaya of Class XI. Demonstrating excellent teamwork skill, and determination, the duo performed exceptionally well throughout the tournament and **qualified for state tournament** which to be held in Rudrapur.

Parth said, "This has been a remarkable success for my team. I would like to thank my parents and coaches for supporting us. We also had a great time throughout the tournament, both during the matches and at the after-party."

The achievements of Parth, Saksham, and Chhaya reflect the strong sporting culture at DPS Roorkee and serve as an inspiration to their fellow students

The school congratulates the young athletes on their success and qualifying state tournament and wishes them continued excellence in future competitions.

SNIC - SRINAGAR (2026)

The NCC Cadets of Delhi Public School, Roorkee attended the **Special National Integration Camp**, Srinagar, Jammu and Kashmir, **from 14th May, 2026 to 25th May, 2026**. The camp brought together around 50 cadets from different parts of India and was hosted by 9 J&K Girls Battalion NCC, Srinagar.

It was truly enriching experience. The camp includedvarious Inter- Directorate Competitios such as singing, dancing, quize, volleyball, tug of war and cultural events. UK2025SDIA7640642 Krishna Tripathi represented Uttarakhand Directorate in Quiz competition. Also, Uttarakhand Directorate secured 2nd Position in Inter Directorate - Singing and Volleyball competition.

The cadets enjoyed excursion to Gulmarg and Sonmarg valley. The vista of the majestic snow capped Himalayas, restored tranquility in everyone's hearts. They also visited Dal Lake and enjoyed delightful jaunt in Shikaras, followed by a picturesque walk in Nishad Garden where the beauty of colourful flowers and fragrance had all viewers transfixed in its spectacle.

On the second last day, the cadets participated in Run For Fun a 5 km run around the Dal Lake, and the Uttarakhand Directorate secured the 2nd Position in both girls and boys category, making it an unforgettable achievement, Mr. Virendra Vats, Director General of NCC, joined to motivate and encourage us. The cultural program, commenced with the grand arrival of our Chief Guest, Shri Manoj Sinha, Lieutenant Governor of Jammu and Kashmir and Mr. Virendra Vats the Director General of NCC.

The camp proved highly beneficial for the cadets, contributing significantly to team spirit, coordination, leadership, interpersonal skills and holistic development. It was a unique and enriching experience that will remain a cherished memory for years to come.

STATE TAEKWONDO CHAMPIONSHIP

ABOUT THE CHAMPIONSHIP

The 16th Uttarakhand State Taekwondo Championship (Qualification for Nationals) was held on 17th May 2026 in Dehradun. I participated in the championship as a member of the Roorkee team, representing Haridwar district. Players from all the districts of Uttarakhand participated in the tournament, making it highly competitive and exciting. I competed in the Junior Under 17 Girls (Under 68 kg) category and won two gold medals, thereby qualifying for the National Championship. The Roorkee team also performed exceptionally well and won the Overall Team Trophy.

We travelled to Dehradun by bus, and after the competition we returned together while celebrating our achievements through singing, dancing, playing UNO, and enjoying the journey with our teammates. It was a memorable experience that strengthened my confidence, discipline, teamwork, and sportsmanship. At present, along with being a student of Delhi Public School, Roorkee, I am also a dedicated Taekwondo athlete and have been training in the sport for the past 10 years. After qualifying for the **National Championship** for the fourth time, I am working even harder towards my goal. I train for around 3 to 3½ hours every day to improve my skills and prepare for the Nationals. I am determined to give my best and make my school, my district, my state, and my country proud.

~Harleen

Hymn To Agape
O' the brave branch of olive,
I am but a mortal.
Hanging by this transient life
Yet the love that channels through my soul
Remains eternal
Strike me, slash me, slay me.
Nay- possess me!
Touch me, embrace me, become one with me.
O' the serene lake engulf me!
A lone swan, glides aimlessly,
Purus amoris cyclus
Allow me to disturb that tranquility painlessly,
Sicut gemini cycni
Ah! Do you see it? Do you hear it? Do you feel
it?
Within me there lies, the pious heartbeat of
virtue
Let these petals of devotion bloom anew.
In hac insania merge. . !
Thou deem me a brave and noble knight
Empathetic and heroic even,
Yet I'm a feeble apostle afflicted by this plight
Ardore me consecra.
O' brave branch of olive,
I am but your lover.
Pursuing you along this everlasting aeon
Yes, the love still channels through my divine
soul,
The placid surge of mine intertwined with you.

Memories That Stayed
Looking through the window, gazing at the sun.
Reminded me of tiring hours, now that school is done.
Every scolding I endured, the decisions that I made -
The time had passed, but the memories stayed.
The benches were old, the rooms were cold, the time had passed, but the memories stayed.
The smell of food, the smile on my face
It wasn't my home, but it was my place.
The flowers had bloomed and I stepped out of the gate,
